

FRIDAY, JUNE 7, 1745.

Extract from a Private Letter, dated Hague, June the 12th, 1745.

We are here under great Concern to know what Step Prince William of Hesse will take, on the disarming of his Troops in Bavaria. At first he was exceedingly out of Humour with M. Vincent, the French Agent; who answer'd him very roundly: "Your Highness mistakes this Matter; the Court of Vienna respected the Allies of Bavaria, and they have only punished your Troops for becoming Neuter." His Highness took all Temper upon this Answer, which he looked upon as a kind of Insult; and, it is said, has sent an Express to recall his Brother, Prince George, who retired in Discontent upon his embracing the Side of the French; and, very probably, if he returns, will take upon him the Command of the Hessian Troops that enter into the Pay of the Maritime Powers. In the mean time, we are certain the Prince of Conti has written to Prince William, to assure him, the Most Christian King will effectually sustain all his Allies in the Empire; and that it will suddenly appear France has still very great Resources, which the World has not suspected.

One of the publick Ministers here has shewn a Letter, with the Date torn off, to conceal the Place it comes from, which gives a particular Account of Engagement in Silesia on the 4th Instant. It says, that Prince Charles's Army consisted of 46,000 Men; that they advanced from Landshut on the 3d, having Schwerberg on their Left, Grossau on the Right, and Giesberg in the Centre; that the Army of the King of Prussia was about 56,000, encamp'd very advantageously behind the River Pointz; that they had Batteries, Redoubts, and every other Advantages; that the Prussian Horse behaved very indifferently; that the Austrian Artillery were ill served; that their Centre advanced too far; and the Square of the Prussians was impenetrable, and made a regular and continued Fires, that after an Action of seven Hours, the Austrians retired to their former Camp, having lost, in the whole, 3500 Men; and the Prussians remained in their Lines near Freyberg. The Letter says nothing of Cannon taken, or Prussian Generals kill'd; but says, Prince Charles exposed himself exceedingly; and that the King of Prussia commanded in Person, and charged at the Head of the Army; and after they were broke, remained with the Army as long as the Action lasted. Some People of Penetration will not credit this at any rate, but affirm, that this Letter is dated at Frankfort; and was coined there, to affect the Election. That some of the French Correspondents at Hamburg were directed to write to the Prince of Conti; and that the Prince of Conti pretends to have an Express with the same News; which is not credible. But the Minister who shews this Letter, says it came from Frankfort; and insists, that those who dispute his Intelligence now, will claim its Authority to contradict what comes by next Post.

**SCHWANBERG'S LIQUID-SHALL,**  
To be used upon the  
**GRAVEL and STONE.**

**THE Rev. Dr. HALES, and others,** have demonstrated by various Experiments, That the Virtues of Mrs. Stevens's Medicine for the GRAVEL and STONE depend upon the SALTS of Lime in the Alient, and calcin'd Shells; but its enormous Dose renders it impossible that it is almost impossible to take it in a manner sufficient to answer any good End. This, then, will inform such Persons who are afflicted with the GRAVEL and STONE, that M. SCHWANBERG, a learned and ingenious Gentleman, who has verified in the most abstruse Operations of Opticks, the method of Liquifying calcin'd Shells, so as to become like Rock-water, yet not corrosive. They give almost instant Relief in the most violent Pains of the GRAVEL, and, if persisted in, will, in time, bid fair for dissolving a Stone in the Urinary Passages, when too large to pass off otherwise. They may be depended on in the Wind-Colic, and all kind of flatulencies; and, where an Alkali is wanting, will supply the defect. A Child may take them in the Month, for Croup, Fevers, and Uneasinesses, which Children are subject to. It is remarkable, That those who take these Drops, have a Sediment in their Urine resembling white Chalk: Now, that this Sediment is a Portion of the Stone dissolved, is evident from an Experiment in the Power of one to make; for, put an human Stone, from a Patient's Passages, into a Vial of the LIQUID-SHALL, and it will gradually dissolve into a White Powder, exactly resembling the Urine of Persons who take it as a Medicine for the Stone; and this in an Hour not greater than that of the Urine, at the same time, not in the least affect a human Stone, in, and, which surprisingly will, upon the Addition of the Drops, be instantly converted into a Snow-white Powder.

To be had of the Proprietor W. BAKER, at his Dispensary, Court, near Katherine-street in the Strand; at his Dispensary, of R. LEE, Stationer, under the Library, in the jeants Inn in Fleet-street; and of John ROBERTS, at the Ball in Castle Alley, near the Royal Exchange, London; at his Printing-Office in Reading, at 1 s. 6 d. in each Part.

The Dose is from 10 Drops to 30; and not to exceed.
